

33rd National Annual Convention

Emerging India @Amrit Kaal

SATURDAY, APRIL 22nd 2023

**The Gaurs Sarovar Portico, Gaur City,
Sec-04, Greater Noida (West)**

EMERGING INDIA @ AMRIT KAAL

Background of the Convention

We are currently living in a period of rapid change, where technological developments are revolutionizing the way we live and the industrial revolution has brought about new technologies with immense power.

The Indian Government has embraced an optimistic and futuristic approach for the road ahead. The Economic Survey tabled in the Indian Parliament on 31st January talks of a complete recovery and focuses on the medium-term. It highlights the key socio-economic reforms implemented during the last 8 years that have put India on a solid trajectory of inclusive and sustainable growth. **During her speech on the Union Budget, the Finance Minister articulated the powerful Saptarishi paradigm that would guide the Amrit Kaal.**

Inclusive Development: This budget is for all – women, youth, senior citizens, tribals, farmers, artisans, entrepreneurs, and the middle class. It has brought in a knowledge-intensive approach to solve farmers' problems and opened new dimensions of crop farming for regaining our lost crops, popularly known as millets and now emphatically honoured as 'Shree Anna'.

Reaching the last mile: This requires a sustained and accelerated emphasis on vulnerable socio-economic groups and backward areas.

Infrastructure & Investment: The Government's continuous thrust on infra expansion continues with bullish spirits.

Unleashing the Potential: Good Governance is the key to a nation's progress and entails providing a transparent and accountable administration which works for the welfare of the common citizen.

Green Growth: The government is consistently using the green lens to socioeconomic development of India so that we can achieve net-zero targets. Whether it is through a focus on green energy, green infrastructure, green jobs or green finance, every element will contribute to the larger objective of achieving climate goals and achieve the Panchamrit declarations.

Youth Power: Discerning observers would have clearly noticed that the government is nurturing the Amrit Peedhi through a Lifecycle Approach. Several programs feed-in to the development of individuals from school-going age till they become job creators - whether it is by reinforcing the National Education Policy, the PM Kaushal Vikas Yojana 4.0 designed to provide modern skills like robotics and mechatronics, or the National Apprenticeship Promotion Scheme.

Robust Financial Sector: India's banking sector has successfully transitioned its journey from the twin balance sheet crisis to leveraged corporates and a solvent, well-capitalised banking system. Direct tax benefits for the middle class strata are a welcome relief.

The Saptarishi Approach will bring in defining changes that will positively catalyse the growth story of Bharat while ensuring 'Sabka Saath, Sabka Vikas'.

With this in mind, we, at Ghaziabad Management Association, have organized this national convention where we need to deliberate as to what the challenges are, why they exist and what is to be done to pass through them successfully.

To carry out a comprehensive analysis, we have identified the following aspects which could be addressed to meet the challenges in the continuing to grow keeping in the Amrit kaal.

- ROLE OF DIGITIZATION AS A DRIVER OF EMERGING INDIA
- ROLE OF START-UPS AND THEIR SUSTAINABILITY
- ROLE NEW EDUCATION POLICY IN SKILL DEVELOPMENT AND VALUE SYSTEM
- SUSTAINABILITY IN GROWING ECONOMY

• **This seminar will attempt to arrive at a course of actionable points that accurately describes the path to follow and how to get through the above challenges.**

GMA: The Way Forward

To propagate and transform the society through better management practices, Ghaziabad Management Association (GMA) – an independent non-profit registered society has been responsive since 1982. GMA has been working towards enabling entrepreneurs, small industries, management professionals and individuals achieve stupendous growth in line with their business potential.

Making headway under the inspiring leadership from the founder President, Mr. C. B. Gupta, Ex-Director, Institute of Management Technology, to the present dynamic leadership, GMA has contributed to management profession and the society through its various educational, training and research activities.

With forward-looking professional thinking, bringing cutting-edge solutions and meeting the business expectations of its member community, **GMA has secured the permanent affiliation to the Apex National Body—All India Management Association, New Delhi.**
